

When Does Aggregating Explanations Work?

ImageNet Results

Jinhua Xu, Davide Anguita, Fabio Roli, Jing Yuan, and Luca Oneto

This report is generated from the structured result files listed in `RESULT_MANIFEST.json`. It is organised by model and experiment and retains incomplete and historical snapshots as archival tables. The released ImageNet rows use the 100-class ImageNet-1k subset (ImageNet100); the label ImageNet is used consistently in this archive.

1 ResNet-18
