

When Does Aggregating Explanations Work?

PathMNIST Results

Jinhua Xu, Davide Anguita, Fabio Roli, Jing Yuan, and Luca Oneto

This report is generated from the structured result files listed in `RESULT_MANIFEST.json`. It is organised by model and experiment and retains incomplete and historical snapshots as archival tables.

Historical and superseded result tables

A DenseNet-121 (archived)

Table 1: NOISE diagnostics results for PathMNIST–DenseNet-121. This table is a historical snapshot included for archival comparison; it reports only the dataset–model rows present in the source file.
